

Abstract of the Disclosure

A pharmaceutical composition comprising microtablets, wherein said microtablets comprise lansoprazole, a lubricant, optionally one or more excipients, and an enteric coating, wherein the weight ratio of lansoprazole to lubricant is from about 1:4 to about 8:1, wherein said microtablets have a tablet size of about 1 mm to about 4 mm, and a tablet weight of 1 to 50 mg, and said microtablets are free of a separating or intermediate layer between the lansoprazole and enteric coating.
